

In the Abstract

Please amend the abstract as follows:

A system ~~comprises~~ includes a first mobile device, for initiating the transfer of a personal collection of data and/or settings from the first mobile device to a remote server, a server for setting up sessions and storing collections of data and/or settings; and a second mobile device, for initiating the transfer of the personal collection of data and/or settings from a storage location in the server to the second mobile device. The first mobile device ~~comprises~~ includes first transceiver means arranged to transmit an initiation message to the server for initiating the setting-up of a session between the server and the first mobile device, by the server, for the transfer of a personal collection of data and/or settings between the device and the server. The second mobile device ~~comprises~~ includes first transceiver means arranged to transmit an initiation message to the server for initiating the setting-up of a session between the server and the first mobile device, by the server, for the transfer of the collection of personal data and/or settings between the device and the server.
